PORCH-LIFT®

VERTICAL WHEELCHAIR LIFT
provides a safe, simple solution
to architectural barriers

Whether you're modifying an existing building or designing a new one, accessibility to the handicapped is important. And PORCH-LIFT provides the simple, economical solution ... indoors or outdoors. This safe vertical wheelchair lift platform anchors permanently beside the steps, using a minimum of space. Motor and mechanisms are enclosed. Runs on 110 volt current. Weatherproof finish. Choose from eleven models with varying lifting heights up to 144 inches. Shipped ready for installation.

POSITION ANNOUNCEMENT

SUNY at Buffalo's Department of Architecture is recruiting up to three full-time tenure track and one visiting (one year) faculty positions for fall 1988. Two of the faculty are being recruited at the rank of assistant or associate professor to teach design studios as well as support courses in one or more of the following areas: graphic communications, building science, environmental controls, history, historic preservation/adaptive re-use, urban design, and design theory. Both positions will be filled with individuals who have demonstrated the potential for strong scholarship. Such scholarship should be construed to include significant research, exemplary design practice, or an outstanding record of publication or exhibition. A third position is being recruited at the rank of assistant or associate professor and will primarily focus on building science. The visiting faculty position is open for assistant/associate rank and is intended for studio and support course instruction. Salary for all positions according to rank and qualifications. Applicants should write to Professor Michael Brill, Chairman, Faculty Search Committee; Department of Architecture; School of Architecture and Environmental Design; State University of New York at Buffalo; Hayes Hall; Buffalo, New York 14214. Applications should be submitted not later than 1 February 1988 and should include: a complete resume; a list of at least three references with full names, addresses, and phone numbers; and samples of professional, artistic, and scholarly work. As an equal opportunity/affirmative action employer, SUNYAB is particularly interested in identifying and recruiting qualified applicants who are women, handicapped persons, and members of ethnic minority groups.

Fry's Springlok Flashing Systems

Like Water Off A Duck's Back

39 years ago Fry Reglet applied a lap-joint feature to our springlok flashing systems. Similar to the overlap, ing feathers of a bird, water rolls off our flashing and onto the roof, without any possibility of penetration. Our system even molts — the flashing is removable for re-roofing and can be snapped back into place when the job is done.

Fry Reglet:
overlapping ideas
with mother nature.
